

Download [Windows Repair all in One](#).

Even naar onder scrollen en klikken op - Direct Download

Dubbeklik na het downloaden op het bestand **tweaking.com\_windows\_repair\_aio\_setup.exe** om de installatie te starten

*Gebruikers van Vista en later:* rechtsklik -> uitvoeren als Administrator.

Na de installatie kan je aangeven om het programma te starten.

Als het venster van Windows repair geopend is ga je naar **step5: Backup**.

Daar klik je bij **System Restore** op **Create**.

Bij **Registry Backup** klik je vervolgens op **Backup**.

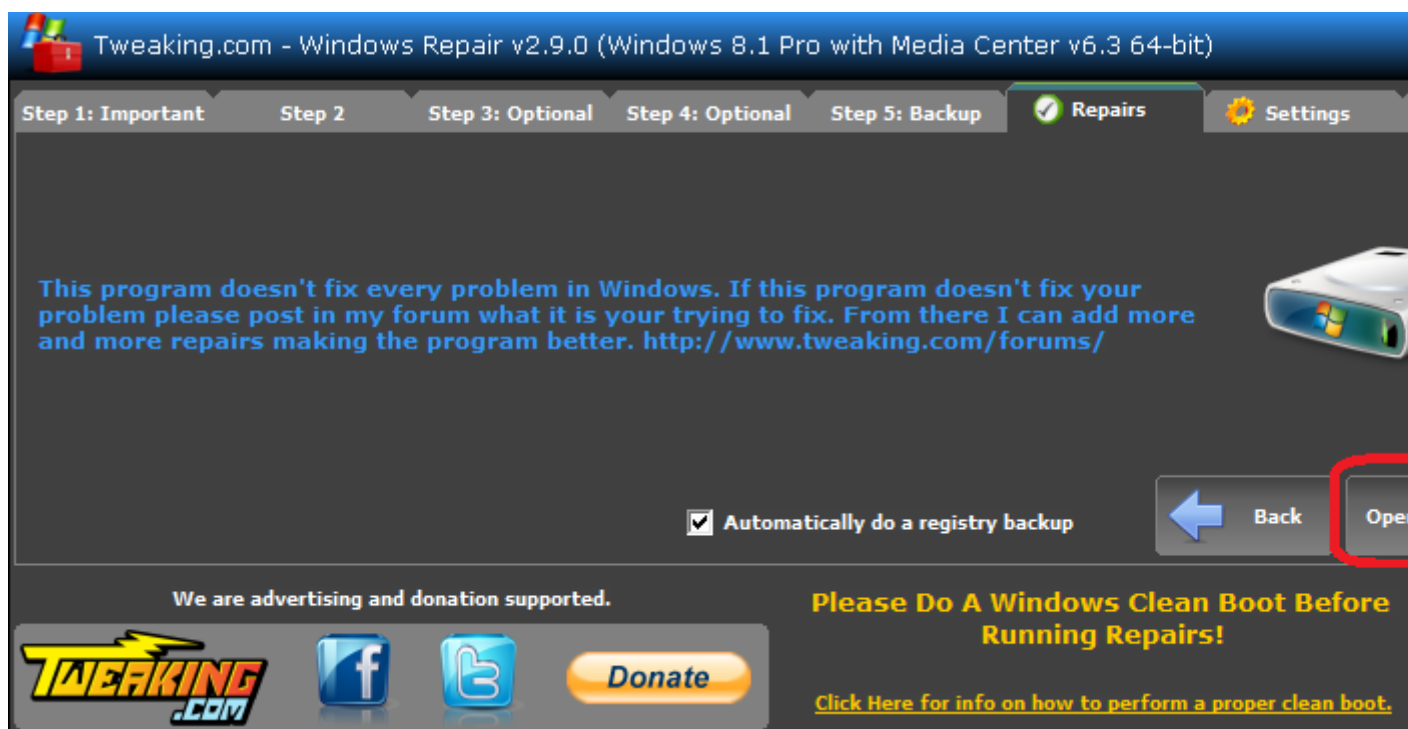

Bij het klikken op **Backup** zie je de vooruitgang.

Erna klik je op **Next**.

In het venster dat je dan ziet klik je **open repairs**.

Zet de vinkjes zoals in de afbeelding.
